

# MyKay Tronics

*The ultimate choice for a fast moving generation!*

# MYDATA®

[www.mydata.com](http://www.mydata.com)

MYDATA's flexible SMT Pick and Place machines have proven to be extremely popular, offering the very best in performance, reliability and return in a most suitable SA market on investment. Their wide range of pick and place products give you the ability to take on all types of high-mix production.

## GOPEL electronic

*Get the total Coverage!*

[www.goepel.com](http://www.goepel.com)

GOPEL electronic develops and manufactures intelligent solutions for the test of mounted PCBs and electronic devices.

## Aqueous Technologies

[www.aqueoustech.com](http://www.aqueoustech.com)

Manufacturers of Aqueous cleaning / de-fluxing systems  
Ultrasonic stencil cleaning systems.

## KYZEN CORPORATION

[www.kyzen.com](http://www.kyzen.com)

Aqueous and semi-Aqueous precision cleaning chemistries.

# DESCO

**Manufacturer of ESD Static Control Products  
(Anti-static and clean room equipment):**

- Bench/floor mats
- Shield bags
- Wrist straps
- Floor care
- Maintenance
- ESD test equipment
- Tools
- Gloves
- Disposable items
- Heel grounders, etc

[www.desco.com](http://www.desco.com)

[www.bpmicro.com](http://www.bpmicro.com)

Full line of device programmers, which include Universal Programmers, Concurrent Programming Systems®, and Fine-Pitch Automated Programming Systems, designed to meet all of your programming requirements.

[emsonline.com](http://emsonline.com)

Manufacturer of stencil printer, wave soldering machine, hot air reflow oven, solder paste softener, pick and place machine and hot air rework station.

[www.pillarhouse.com](http://www.pillarhouse.com)

Manufacture a wide range of automated soldering systems for Selective Soldering of components on Printed Circuit Boards.

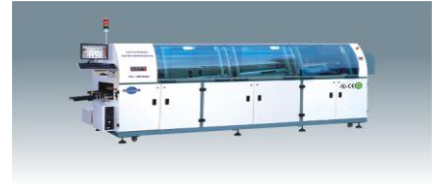

[www.loctite-europe.com](http://www.loctite-europe.com)

The Multicore portfolio includes market-leading lead-free solder pastes, tin-lead paste formulations for traditional and crossover manufacturing, flux solutions for dual wave and lead-free processes, cored solder wire, solid solder wire and a host of products for delicate hand soldering and re-work operations.

[www.folungwin.com](http://www.folungwin.com)

Folungwin is specialized in lead-free wave soldering machine.

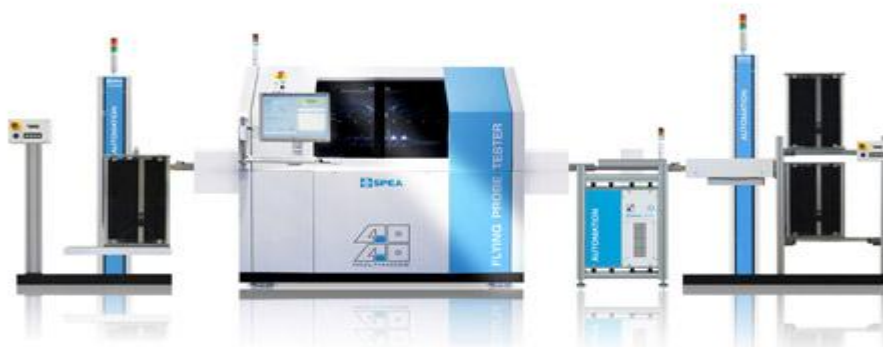

[www.dimasmt.com](http://www.dimasmt.com)

- Manual placement
- Semi-automatic placement
- Ovens
- Stencil printing
- Software

[www.spea.com](http://www.spea.com)

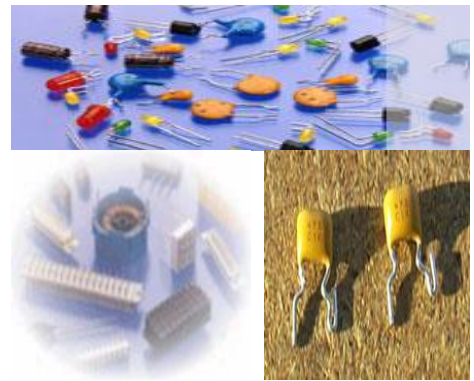

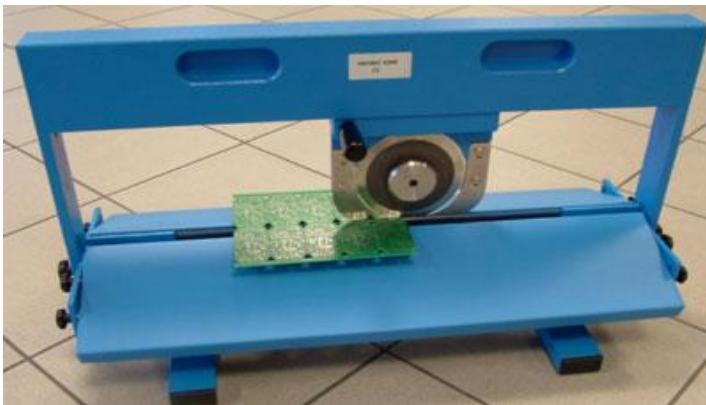

Designing and manufacturing the most suitable test equipment - the most advanced, most reliable, most convenient - for testing semiconductors and electronic boards.

[www.ebso.com](http://www.ebso.com)

Manufacturer of printed circuit board assembly equipment. Systems range from lead forming of axial and radial components, depanelizers, component counters And a wide range of Cutting and bending machines of all type of leaded components.

[www.paceworldwide.com](http://www.paceworldwide.com)

Quality soldering / rework tools and systems, fume extractors.

- Hand pieces
- Desoldering Stations
- Conductive Rework Systems
- Convective Rework Systems
- Area Array (BGA) Rework Systems
- Tips and Nozzles
- Consumables
- Accessories
- Spare Parts
- Soldering Materials
- Fume Extraction Systems
- Soldering Stations

[www.reprintservices.co.uk](http://www.reprintservices.co.uk)

Design, manufacture, promotion and support of its own range of class leading screen printers. Also provide a complete range of spares, repairs, and refurbishment.

[www.vetusa.com](http://www.vetusa.com)

Manual and Automatic Taping Equipment and SMD Taping Supplies. Component Processing, which includes Tape and Reel, Tinning Services, and Lead Form and Trim.

[www.conceptronic.com](http://www.conceptronic.com)

Manufactures Solder Reflow Ovens, Forced Convection Rework Stations and Customized Thermal Processing Equipment.
